Hot Breakfasts Eliminated

- Beginning next month, Dining Services will no longer serve hot breakfast foods at university dining halls. Instead, students will be offered a wide assortment of cold breakfast items in the morning. These cold breakfast foods, such as breads, fruit, and yogurt, are healthier than many of the hot breakfast items that we will stop serving, so health-conscious students should welcome this change. Students will benefit in another way as well, because limiting the breakfast selection to cold food items will save money and allow us to keep our meal plans affordable.

University Should Pave Running Trails

The university has about three miles of unpaved dirt running trails that pass through the forest near campus. I think these trails should be paved with cement. One reason for paving the trails would be to increase their safety. When it rains, the dirt turns to mud and becomes very slippery, so the runners who use them can slip and fall. Pavement would solve this problem. Also, paving would make the trails look nicer, which would encourage students to use them. Bumps in the trail would be smoothed out and weeds would be paved over, making the trail more attractive to runners.

Sincerely,

Sally Jacobs

University Should Pave Running Trails

The university has about three miles of unpaved dirt running trails that pass through the forest near campus. I think these trails should be paved with cement. One reason for paving the trails **would** be to **increase their safety**. When it rains, the dirt turns to mud and becomes very slippery, so the runners who use them can slip and fall. Pavement would solve this problem. Also, paving **would make the trails look nicer**, which would encourage students to use them. Bumps in the trail would be smoothed out and weeds would be paved over, making the trail more attractive to runners.

Fee Increase For Recreation Center Use

The university administration today announced a \$25 increase in the student fee for using the campus recreation center. The higher fee, which all students are required to pay, will provide funds to upgrade the facility and provide newer, more modern exercise equipment at the center. “We expect the improvements to increase student use of the facility,” explained David Smith, director of the student activities office. Mr. Smith also noted that the decision was approved because “we feel that \$25 is a reasonable increase that will be affordable for individual students.”

Student Art Display

The university is currently considering possible locations on campus for displaying paintings and other artwork by students. I think the lobby at the entrance to the student center would be a great location. Since many students pass through the student center every day, artwork displayed in the lobby would be viewed by hundreds of people. Also, because the whole front of the building is made of glass windows, the lobby is filled with natural light. This makes it perfect for displaying artwork, which should have plenty of light to be seen and appreciated.

Sincerely,
Paul Sands

New Library Workspaces

Say good-bye to the big, multi-person study tables in Turner library. This summer, the tables will be exchanged for new personal study cubicles—small, one-person desks enclosed by walls. These new units will allow students to have privacy and work in isolation and will therefore eliminate noise in the library so students can concentrate. Additionally, the cubicles will enable the library to accommodate the recent increase in the number of students attending our university. Although the current tables seat six students each, they make poor use of available floor space. The cubicles, on the other hand, are designed for maximum space efficiency, and the library can therefore add 50 new seats.

The **man** expresses his opinion about the upcoming change. State his opinion and explain the reasons he gives for holding that opinion.

Energy costs reach sky-high levels

Heating prices, and the university's heating bills, reached record-high levels this year. In an effort to reduce heating cost, the university plans to lower the temperature in all classroom buildings on weekends and on weekdays after five P.M., when the day's classes have officially ended. Because classes will not be in session at these times, the reduced heat should have no negative impact on students and their studies. The university considers it essential that the cost-saving measures not interfere with student activities.

The **woman** expresses her opinion about the plan described in the article. State her opinion and explain the reasons she gives for holding that opinion.

University Choir to Enter Off-Campus Singing Competitions

Currently, the university choir gives singing concerts only on campus. Next year, however, the choir will add competitive events at other locations to its schedule. The choir's new director feels that entering singing competitions will make the quality of the choir's performance even better than it is now. "Competitions will motivate students in the choir to pursue a higher standard of excellence in singing," he said. In addition, it is hoped that getting the choir off campus and out in the public will strengthen the reputation of the university's music program. This in turn will help the program grow.

The **man** expresses his opinion about the change described in the article. Briefly summarize the change, then state his opinion about the change and explain the reasons he gives for holding that opinion.

Student Health Services Need Improvement

The situation at the health center is unacceptable: you sit in a crowded waiting room for hours waiting to get treatment for minor ailments. Then when it's your turn, you get about three minutes with an overworked doctor. I have two suggestions: first, the health center needs to hire more doctors so that each patient receives quality treatment. And as far as the wait time issue is concerned, the health center is currently open Monday through Fridays, which means that people who get sick over the weekend wait until the following week to get treatment. So, opening the health center on weekends should solve that problem too.

Sincerely,

Megan Finch

Daily E-Mail with Campus Activities

The university will now send all students a daily e-mail containing information about campus events and activities. Rather than getting information about activities once a week in the campus newspaper, students will get the information every day, thus ensuring that it is always up-to-date. According to the university spokesperson who announced the plan, “For all of us now, e-mail is part of our daily lives. Students in particular have become used to relying on e-mail and the Internet for most communication, so this is a logical change that will benefit everyone.”

The **woman** expresses her opinion about the university's plan. Briefly summarize the plan. Then state her opinion about the plan and explain the reasons she gives for holding that opinion.
